

Company Forms

Many HR systems are inflexible and allow users little opportunity to customise and create their own versions of crucial records such as personnel data, appraisals, training or accident reporting.

Not HR-People, the cutting edge, on-demand, internet-delivered HR solution from HR Solutions International.

While other systems are rigid in their flexibility and allow end-users little leeway, the new HR-People Company Forms Module provides end-users with a totally adaptable and flexible way of designing a range of unique, personalised and dynamic screens.

Powerful customisation

The new Company Forms Module is a powerful feature which allows management the capability to create their own screen designs and layouts – exactly how they want them.

The wide range of optional inputs ensures that each view is ideally suited to each requirement.

Company Forms is so simple anyone can design their own personalised screen views, while using the new facility is easy, with no additional technical knowledge required.

A whole range of additional features can be added within HR-People – already hailed as one of the most user-friendly HR systems available for small to medium sized companies - without the need to have extra or bespoke development work undertaken.

“HR-People” - The internet-delivered, on-demand HR management system that allows you to manage your people effectively and efficiently, without costing the earth.

System Modification

The Company Forms module has specifically been designed to ensure the user can add or modify screens views already created for:

- Training
- Appraisals
- Accident reporting
- Recruitment
- Inductions
- Personnel data

The existing screens have been based on a simple design so that they can easily be enhanced and modified, while totally new screens can be created and added to the system.

The company will save considerable money as all these features can be added inhouse, at no extra cost and with no additional technical work required.

To ensure the utmost security at all times, access to the new Company Forms is restricted by personnel grade and access level.

Each company has unique requirements and the new HR-People Company Forms Module provides the flexibility to ensure end-users have a system that meets their own unique business requirements – how they want it, when they want it.

Executive Information and Reporting

Company Forms also enables you to create powerful management reports based on the screens you have created. Follow up actions and tasks can be inbedded in the system with reminders sent by e-mail to the relevant manager of staff member for future action.
